Willian T. Lunardi

Principal Researcher at TII

Tel: +971-58-591-4488 – Email: wtlunar@gmail.com
Homepage: https://wtlunar.com/

Education

Ph.D. in Computer Science 2016 – 2020
University of Luxembourg Luxembourg

M.Sc. in Computer Science 2014 – 2016
Pontifical Catholic University of Rio Grande do Sul RS, Brazil

B.Sc. in Computer Science 2010 – 2014
University of Passo Fundo RS, Brazil

Professional Experience

Principal Researcher Apr 2023 – Present
Technology Innovation Institute Abu Dhabi, UAE

- Lead R&D and post-training of LLM agents for autonomous software engineering and terminal tasks.
- Develop training strategies targeting generalizable reasoning, planning, tool use, and long-horizon execution.
- Design and oversee supervised fine-tuning of LLMs using synthetic tasks and agent trajectories.
- Lead researchers and engineers in agent development and evaluation.

Senior Researcher Jun 2021 – Apr 2023
Technology Innovation Institute Abu Dhabi, UAE

- Developed contrastive learning and adversarial training methods for OOD and anomaly detection.
- Designed hyperspherical representation models for robust anomaly detection.
- Conducted empirical studies and contributed to peer-reviewed research with cross-disciplinary teams.

Research Associate Jun 2020 – May 2021
University of Luxembourg Luxembourg

- Researched neural combinatorial optimization and developed predictive maintenance models for industry.
- Co-supervised PhD and MSc students on model development, experimentation, and publication.
- Led industry collaborations, translating operational requirements into research projects.

Doctoral Researcher Jul 2016 – Jun 2020
University of Luxembourg Luxembourg

- Developed mathematical models and optimization methods for industrial scheduling problems.
- Collaborated with academic and European industry partners on scheduling research.

Technical Skills

LLM & Agentic AI: Software engineering agents, terminal agents, tool calling, context management.
Agent Evaluation: Agent benchmarking, trajectory and failure analysis; Harbor, Terminal-Bench.
LLM Post-Training: Supervised fine-tuning (SFT), synthetic data generation, training-trajectory pipelines.
Deep Learning: PyTorch, Hugging Face Transformers, PyTorch Lightning, PyTorch Geometric.
Infrastructure: Kubernetes, Docker, sandboxed execution, Linux, Git.
Programming: Python, C++, Bash.

Honors & Awards

Best Paper Award — ECML PKDD, 2025.
Excellent Thesis Award — University of Luxembourg, 2020.

Additional Information

Dual Citizenship: Brazil and Italy.
Languages: Portuguese (native), English (fluent), Italian (basic).
Relocation: Open to relocation globally.

Publications
